LINA JUREVIČIŪTĖ

Lina Jurevičiūtė is a passionate vinyasa, power & yin yoga teacher and a sound healing specialist. She strongly believes that through the power of our breath and movement we can transform not just our body but our mind too so during this retreat we'll be exploring strong vinyasa practices, soothing yin, powerful meditations and transformative sound healing sessions. Lina has started her yoga journey 9 years ago and now is teaching around Europe, leading retreats and wellness getaways. Lina places a big emphasis on the internal experience, rather than on external appearances so in her classes expect to move through creative flows using your breath that will guide you into this extraordinary journey through your mind, body and soul. On our yoga mats Lina guides you with ease and open mind where we all learn from our past, strengthening our present and building our future. It's never just about the poses - Lina encourages to delve much deeper to find the true connection and inner stillness.
